

AMUTANJAN HEALTH CARE LIMITED

ENVIRONMENTAL POLICY

Amrutanjan is committed to protect the environment through conservation of natural & non-renewable resources and to prevent or control pollution across its operations

We, at Amrutanjan shall

- continuously improve our processes to reduce the environmental impact
- set periodical objectives/plans for the minimal use of natural resources by reducing, reusing, and recycling.
- comply with all applicable statutory regulations & guidelines regarding environment protection
- train our employees to contribute and participate in realizing our environmental objectives.
- help every stakeholder to understand and to practice the relevant aspects of this Policy in their routine assignments through regular communication of objectives, action plans and achievements.

ENVIRONMENTAL OBJECTIVES

- To achieve 30% reduction in energy consumption through solar energy over a period of two years.
- To reduce water consumption in the beverage plant by 25% within a year.
- To reduce and reuse plastic consumption by 5% in our products/processes.
